

Prepare Yourself with PuriFire Systems®

- Emergency Water Purification
- Chemical Free Disinfection & Decontamination

# 3S2P

## PORTABLE WATER PURIFICATION SYSTEM

The PuriFire® 3S2P provides water for first responder needs for hydration, disaster relief, humanitarian, and remote area applications. The PuriFire® 3S2P is a three-stage portable water purification unit that runs on solar power, on-board or external battery, or cigarette lighter. It can purify surface water up to 2,400 gallons per day and effectively kill bacteria, virus, cryptosporidium and giardia cysts. Key components of this unit are NSF certified, and in compliance with US EPA Guide Standard and Protocol for Testing Microbiological Water Purifiers, to help ensure the best purification ability and safety to human health.

## SPECIFICATIONS

- Exterior Dimensions: 20.62" L x 16.87" W x 8.12" H
- Capacity: 2400 gallons per day of potable water (based on 20 hours per day at 2 gallons per minute)
- 3 stage filtration system
- Dry Weight: 35 pounds
- Patented ultraviolet device
- Inline TDS monitor, battery powered
- Stainless steel mesh strainer
- Ultraviolet light intensity: 16,000 microwatt-sec/cm<sup>2</sup>
- Carbon block filter: 0.5 micron
- Low power requirement
- Specialty filters address:
  - Bad taste / odor
  - Heavy metals / Nitrate removal
  - VOC reduction
- Water tight case comes in multiple colors
- One year warranty
- Easy to use and service
- No chemicals added
- Solar panel with rigid cover
- On-board rechargeable battery
