

Prepare Yourself with PuriFire Systems®

- Emergency Water Purification
- Chemical Free Disinfection & Decontamination

3S3P PORTABLE WATER PURIFICATION SYSTEM

The PuriFire® 3S3P is a three-stage portable water purification unit; it can purify surface water up to 3,600 gallons per day and effectively kill bacteria, virus, Cryptosporidium and Giardia cysts. Key components of the unit are NSF certified, and in compliance with US EPA Guide Standard and Protocol for Testing Microbiological Water Purifiers, to help ensure the best purification ability and safety to human health. Simply plug the portable unit into a vehicle cigarette lighter or a 12 VDC battery to operate. The PuriFire® 3S3P is ideal for disaster relief, humanitarian, outdoor and recreational applications.

SPECIFICATIONS

- Dimensions: 25" L x 20" W x 9" H
- Capacity: 3600 gallons per day of potable water (based on 20 hours per day at 3 gallons per minute)
- 3 stage filtration system
- Weight: 49 pounds
- Patented ultraviolet device
- Dual TDS monitor, battery powered
- Washable pre-filters
- Stainless steel mesh strainer
- Ultraviolet light intensity: 16,000 microwatt-sec/cm²
- Carbon block filter: 0.5 micron
- Vehicle cigarette lighter powered
- Water tight case
- One year warranty
- Easy to use and service
- No chemicals added
- Solar panel with rigid cover
- On-board rechargeable battery
- Cigarette lighter with extension cord
