

Prepare Yourself with PuriFire Systems®

- Emergency Water Purification
- Chemical Free Disinfection & Decontamination

PURIFIRE® 4S10F WATER PURIFICATION SYSTEM

The PuriFire® 4S10F is the first fire truck integrated water purification system designed in the world. With advanced filtration and chemical free disinfection technology, it brings the best quality drinking water from freshwater sources with biological and chemical contamination. The 4-stage US patent-pending system can produce up to 12,000 gallons per day with minimum power consumption. The 4S10F is a great addition to your fire and emergency service team and running the system will not hamper the ability to extinguish a fire.

SPECIFICATIONS

- Dimensions: Varies per model
- Capacity: 12,000 gallons per day of potable water
- 4 stage purification system
- US patent pending technologies
 - Ultraviolet light and ozone disinfection
 - Fire pump driven
- Power source: 12 vdc
- Electrical powered flushing system
- TDS and Temperature monitoring system
- Pressure regulator: 80 psi
- Stainless steel spigot

BENEFITS

- Easy operation and service
- Chemical free disinfection
- Dual-gradient pre-filtration
- Better disaster responses
- NSF certified components
- One year warranty
